

What is the Elementary Science Summer Camp?

The Austin Independent School District is offering an exciting, fun-filled elementary summer science camp for 2010-2011 4th grade students. This opportunity will help students make gains in their scientific learning to achieve the district and state goal of science success in 5th grade. The Science Summer Camp will focus on students using investigations, tools, and vocabulary to support their learning of science.

- Students must meet the following criteria: 2010-2011 4th grade students who did not meet the district's standard on the Middle of the Year (MOY) benchmark test in science, and were recommended by their principal.
- June 8 - June 30, 7:45 a.m. - 12:30 p.m.
- **FREE** There are no tuition costs.
- **FREE** transportation
- **FREE** Breakfast and Lunch to all students
- Hands-on Science Experiments
- Laboratory and Field Investigations
- Parent Involvement

PLEASE NOTE: If your child is currently scheduled for bus transportation and you want to change their site, this will automatically delay summer bus transportation and may cause your child to be ineligible for bus transportation to the new summer school site. Parents who can provide their own transportation may register their child at any of the four summer school sites.

For questions or additional information regarding the Elementary Science Summer Camp contact, Dr. Barbara ten Brink or your child's school.
