

What Employees Are Saying About the EAP

Sample Comments Regarding the Employee Assistance Program

this is a **welcome & admirable addition to AISD services**; my wife works in Human Resources at UT & i have long admired & respected the fact that they offered these services to their staff - **it just makes good business & personal sense** & can serve as an important well-being resource for staff, & any organization (or corporation) as large as AISD should be offering this service as a matter of de facto support
congratulations on the evolution of these services being made available to our district staff members

CONGRATULATIONS !!!!! What an accomplishment to move this forward in our district! ***THIS ROCKS!!!***

I know that **God answers prayers** now and I realize that I may have broken a thousand and one district rules by saying that on email.....never the less... HELP ME!!!!

My (**cafeteria**) staff and I would like to request more information such as brochures, or whatever is available to us. Thank you for your prompt attention.

An area of need among many teachers, including myself and wife (who is also an AISD teacher), is **grief counseling for loss**...specifically, the loss of children. The **benefits of this program can be far reaching...and everlasting**. Thanks, AISD, for the unique service...

I am dealing with issues of **grief and PTSD** related to parenting a child with reactive attachment disorder. I also am struggling with some "turning 40" issues. I need someone strong and experienced, preferably with someone who has experience with **adoption issues**.
